

# Planning Meeting ODOT State GPS RTK Reference Network

Thursday, July 14, 2005  
9 to 12 A.M.  
Marion County Office Complex  
Salem, OR

## Final Agenda

- Introductions
- Overview of RTK GPS networks and how they work.
- Benefits of an **network** RTK solution over a **single baseline** RTK solution
- Benefits of partnering to develop an RTK network.
- How will users access the RTK correctors?
- What reference receivers and rovers will be supported?
- Development plan for the ODOT State GPS RTK Network
- Partnerships:
  - Who should partner with ODOT to develop and operate the network?
  - What are the responsibilities and obligations of the partners?
  - Interagency agreements
- Computer network security for partners
- Network standards
- Site selection
- Timeline for network development:
  - what is the next step?
  - what should be done before the next meeting?
- Next partnership meeting: Wednesday, August 31?
